Explore the innovation

Why Spoter Stands Above The Competition

Better Management : Spoter helps a owner to track & manage, monitor, safe-guard, driver, goods and fleet through a single web interface.

- **Mapping** : We are partnered with well known mapping providers 'Google mapping' – for the most accurate and up-to-date mapping.
- **Real Time Tracking** : Undoubtedly, one of the most important advantage is real-time information that one receives about the location of the vehicle.
- **Better Maintenance** : Improve the regularity and timeliness of preventative maintenance with automatic GPS tracking on vehicles.

WE CARE YOUR VEHICLE

WHAT IS GPS VEHICLE TRACKING SYSTEM?

GPS Vehicle Tracking system is a system by which you can track/watch your vehicle [Bike / car / Bus / Truck] live location, live status, if still - how much time still there, if running- how much is the speed, total running km and approximate fuel consumption etc. from your internet connected mobile or pc. You can watch past data's also.

HOW GPS VEHICLE TRACKING SYSTEM WORKS?

1. A GPS Vehicle Tracking Device install in vehicle. It calculates position by satellite.
2. A GSM SIM Card have to be install in this device, and it should be filled with data balance , by which device send the data to main server.
3. By unique user id and password we can watch the vehicle by access server's website version or using mobile apps.

IS THERE ANY WARRANTY ON SPOTER GPS VEHICLE TRACKING SYSTEM DEVICE?

Yes, we have Six months Limited Standard replacement warranty on GPS Vehicle Tracking system device.
